

## **FOR MEMBER OF THE CITY COUNCIL**

**KAMAAL MARTIN**

**AGE: 39**

**Occupation:** Project Director/Educator

We need to reimagine and revitalize Lemon Grove. A resident of almost 10 years, I choose to raise my daughters here, and I'm invested in this community. As your Councilmember, together we can create a future with thriving businesses, a greener environment and healthier, happier people.

My experiences include: wildland firefighter, taxi driver, special education assistant, car salesman, non-profit program staff, campaign manager, field representative, land use consultant, district director, government affairs, college professor...With over 10 years of experience in government, my expertise will help get things done in Lemon Grove and be an excellent advocate for us with the county, state and beyond.

Let's find creative ways to support businesses and their growth. Let's stimulate the local economy through infrastructure investments and innovations in public health/safety. Let's create green walkable spaces and improve sidewalks and lighting. Let's support community gardens, farmers markets and local farmers. Let's prioritize senior services, youth and recreation programs. Let's generate tax revenue with the growing cannabis industry. Let's get traffic right!

I believe I have the experience and courage needed in a public servant. Please choose me as your next Councilmember! Thank you.
